1. PASEO PROJECT OBJECTIVES:

PASEO Project ("Pilgrims' cities engagement for Achieving a Social Europe On going") is devoted to allow pilgrims' cities to be connected and defend the aim of an Europe for all.

Project promoters considers that these cities has special values (tangible and non tangible) which integrate, capitalize and express part of the European values such as democracy, dialogue, social integration, among others. The project partners are committed to connect its cultural expressions and pilgrims with the contribution to construct a better social Europe for all.

The aim is to open minds of local citizens and visitors as pilgrim around a common Europe in progress which is called to be built over social values of solidarity, cohesion, tolerance and freedom of movement among all territories.

PASEO will pursue formal engagement and network of local governments across Europe in commitment to share and deliver publicly messages in favour of Europe and its policies for citizens in its pilgrim routes local or paneuropean.

Project partners commitment in these objectives would suppose the need to promote an open and multilevel debate among local/regional/European interested bodies about how to improve the public - private cooperation for a deal and to achieve a better social Europe.

PASEO will establish also channels with pilgrims and its cities of interest with MEP and EU institutions to establish a feed back about how to improve awareness and feed back in social aspects and empower EU cities and citizens in this field.

This aim will be reflected in the development of a set of workshops around good practices which will emerge from a joint reflection about fruitful experiences in the field developed in a range of European partners.

Specific interest for PASEO is the interchange of outcomes from Local Governance, non profit, religious organisations and stakeholders experiences in European small size and rural communities. It will be accomplished with a joint review of a range of partners case studies linked with development of actions linked with pilgrim routes, facts and meeting places.

In addition to that, PASEO will be focused in linkages of common social values and EU policies in the framework of local governance, social innovation experiences in local and international cooperation, how to produce a local consensus and an effective workplan to allow empowerment of citizens, how to do the engagement with European policies and how to transfer local voice to European institutions (and vice versa), how to guide implementation of best policies and practices to local governance approach in rural and urban areas, hosting and accompanying measures for local social dialogue and transfer of recommendations to National and European Municipalities networks.

PASEO also will stablish a process to go beyond the project life cycle and constitute an open, free and collaborative framework for cities and citizens to share experiences (through web 2.0) and as an European Network suitable to enhance cities participation.

2. HOW PASEO WILL FIT OBJECTIVES

PASEO project fits with all selected features throughout the review and dissemination of joint analysis of case studies coming from each partner in each workshop:

Workshop nº	Location	Topic of interest

6. DISSEMINATION

PASEO will implement following dissemination tasks and outputs:

- 1) Implementation and development of **PASEO Social Network** in following channels: Twitter, a group in Facebook and a group in LinkedIn and a video channel in Youtube. Also a collaborative blog with partners in google (blogspot) will be created to open permanent debate to other cities and citizens
- 2) Build PASEO Social Network and produce a **periodic and monthly feed back with news, consults, polls and evaluate project impacts**. This tasks will allow to share in each workshop suitable guidance for dissemination purpose and will suppose to extend and promote project results in Social Network and its final validation with a range of limited number of users from partners and target users from each country
- 3) Dissemination throughout **link interchange with webs** linked with social dialogue, citizen participation in local democracy, municipalities, regions and European networks
- 4) **PASEO will be constituted as an European Network** and will manage a low fee for private and public organizations interested to take into account the added value of a network which will expect to engage under free basis an amount of more than 1.000 subscriptions per year. It is expected that each partner will engage an amount of 200 newcomers to PASEO per year.
- 5) **Free delivery of PASEO Multimedia means: 10 interviews with experts** throughout web 2.0 tools (youtube) and project web site and **5 to 10 case study reports**

7. EXPECTED IMPACT

The expected impact of the project for:

- 1) Partners and public local councils: PASEO will look forward to produce a relevant amount of PASEO quality outputs (guidance, good practices, interviews, ...) to allow to this target group the efficiency of public local investments to accomplish awareness of EU Directives and Policies in pilgrims cities. The partners will transfer their experience, starting a cooperation relationship and networking. Exchanges of experience, in order to take advantage of diversity between different multilevel local development approaches and institutions will contribute to the improvement of cooperation.
- 2) Trainers in environmental education and participation: Exchange of experience in teaching methods in citizen participation and exchanges in the fields of teaching materials. Knowledge of a range of different programs and learning styles, making contacts.
- 3) Local public and private sector: We think this project can have impact in helping local development agencies to support their workplan in cooperation at local level with stakeholders. Positive impacts on development of new bottom - up and top down approaches in local development initiatives
- 4) Associations and citizens: The impact over them could be engaged by setting suitable examples for them. Also being able to provide evidence of the positive impact of a venture increase the possibilities of starting up new citizenship initiatives
- 5) Volunteers forces: The impact on the local volunteers level should be positive. Small groups of NGOs and volunteers will contribute to positive development and awareness around social cohesion pilgrims cities and its routes.
